

FIRE!

You know you're responsible! A business' fire risk assessment is a legal requirement – would members be interested in

a) A free briefing from West Sussex Fire and Rescue on carrying out a fire risk assessment?

and / or

b) A basic fire training course so that your team knows how to handle an emergency if it happened?

There would be cost – the course costs £200, but up to 20 people could attend making the cost per head very good value.

Please contact Sandi on sandi@i-dmc.co.uk if you are interested in either or both.
